

Wildflower species – 2023

A mix of sedum for base cover of the M-Tray® modules with a variety of low-growing, perennial wildflower species. These plants are tolerant to dry conditions and suitable for substrate a depth of 100mm.

The wildflower plants will produce flowers up to a height of approx. 50cm and attract bees and butterflies. As it is made up of a wide range of native (& wild origin) flowering species and grasses to maximum diversity and reduce the amount of dead vegetation at the end of the summer.

Wildflowers often take 2-3 years to fully germinate and flower, and some species are viable only as annual and biennial flowers, so new seeds should be broadcast regularly.

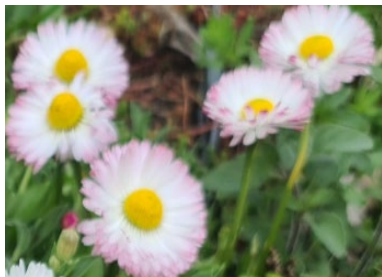

Armeria Maritima

Thrift

Approx. height: 25cm

Flowering Period: May to September

Bellis Perennis

Common Daisy

Approx. height: 25cm

Flowering Period: May to July

Fragaria Vesca

Wild Strawberry

Approx. height: 5cm

Flowering period: Summer

Anthyllus Vulneraria

Kidney Vetch

Approx. height: 30cm

Flowering period: June to September

Viola Tricolor
Wild Pansy
Approx height: 20cm
Flowering Period: May to October 2023

Thymus Polytrichus
Thyme
Approx. height: 15mm
Flowering period: May to September

Lotus Corniculatus
Birdsfoot Trefoil
Approx. height: 10cm
Flowering period: May to September

Oreganum Vulgare
Wild Majoram
Approx. height: 10cm
Flowering Period: Spring/ Summer

Silene Uniflora
Sea Campion
Approx. height: 10mm
Flowering Period: June to August

Primula Veris
Cowslip
Approx. height: 25cm
Flowering period: March to May

Prunella Vulgaris
Selfheal
Approx. height: 20cm
Flowering period: June to September

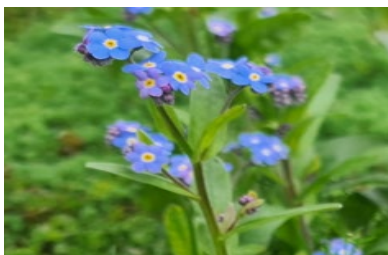

Leontodon Hispidus
Rough Hawkbit
Approx. height: 15-30mm
Flowering period: Late May to October

Succisa Pratensis
Devils-Bit-Scabious
Approx. height: 100cm
Flowering period: July to October

Erigeron
Fleabane
Approx. height: 25cm
Flowering period: May to October

Myosotis Sylvatica
Woodland Forget-me-not
Approx. height: 12-30cm
Flowering period: April to July

Sedum Acre
Biting Stonecrop
Approx. height: 10mm
Flowering period: June to July

Chamaemelum Nobile
Roman Chamomile

Approx. height: June to July

Flowering period: 20-30cm

Sedum Hybridum

Sedum Czar's Gold

Approx. height: 10mm

Flowering period: May to August

Sedum Album

White Stonecrop

Approx. height: 10mm

Flowering period: June to August

Sedum Pullchellum

Sea Star

Approx. height: 10mm

Flowering period: May to July

Sedum Selskianum

'Goldilocks' (true)

Approx. Height: 20cm

Flowering Period: Aug-Sept

Sedum Montanum

Approx. Height: 20cm

Flowering Period: June-August

Sedum Spurium var. Coccineum
Dragons Blood

Approx. Height: 15cm
Flowering Period: July-Sept

Sedum Reflexum
Rocky Stonecrop

Approx. Height: 30cm
Flowering Period: June-Aug

Sedum Sexangulare
Tasteless Stonecrop

Approx. Height: 8cm
Flowering Period: July-Aug

Sedum Floriferum

Weihenstephaner Gold'
Approx. Height: 10cm
Flowering Period: July-Aug

Sedum Montanum ssp Orientale

Approx. Height: 20cm
Flowering Period: June to August

Sedum Middendorffianum var. Middendorffianum
Middendorfs Stonecrop

Approx. Height: 25cm
Flowering Period: July to September
