Stainless Steel 2 Hook Start/End Clip

Function: The 2 Hook Clips are made from 1.5mm thick stainless steel plate designed to act as hidden fixings for multiple Wallbarn decking products that have a central milled profile.

Will fit boards manufactured with a standard side milling profile, the teeth of the clips grip into the grooves at the sides to hold the first and last laid board in place securely without need for top screws or any visible fixings.

These are secured with Wallbarn's self-tapping stainless steel screw for Wallbarn Aluminium rails/joists or applicable screws for WPC/composite and timber joists.

This clip is used in conjunction with the 4 hook clip which comes in either stainless steel or burnished steel. These are secured with Wallbarn's self-tapping stainless steel screw for Wallbarn Aluminium rails/joists or applicable screws for WPC/composite and timber joists.

*Your Account Manager can provide datasheets for any other products mentioned in this datasheet.

DATASHEET

Technical Data

- Fire Rating:** Class A
- Compatibility:** They can be used with decking boards manufactured with standard milling side profile.
- Range:** Stainless steel AISI 304, with raw stainless steel finish.
- Performance:** Resistant to deterioration by UV light, damp and normal atmospheric conditions in the long term.
- Material:** Stainless steel AISI 304
- Recycled:** No
- Recyclable:** Yes
- Accessories:** Used with 4 Hook Clip in Stainless Steel or Burnished (Datasheet Available)
