

## DATASHEET

---

### Bubble Clip

**Function:** The Bubble Clip is made from stainless steel and powder coated in matt black. It is designed to act as a hidden fixing for Wallbarn decking products. Because it has an A2 Fire Class Rating, it is best suited to work with our C-Deck Fibre Cement Fire Rated System.

Will fit boards manufactured with a standard side milling profile, the wing of the clip grips into the grooves at the sides to hold deck boards in place securely without need for top screws or any visible fixings. These are secured with Wallbarn's self-tapping stainless steel screw for Wallbarn Aluminium rails/joists or applicable screws for WPC/composite and timber joists.

The clip will provide an approximate 7mm gap between each deck board.

**\*\*Your Account Manager can provide datasheets for any other products mentioned in this datasheet.**

# DATASHEET

## Technical Data

- Fire Rating:** Class A2
- Compatibility:** They can be used with decking boards manufactured with standard milling side profile, including C-Deck fibre cement fire rated decking and boards.
- Performance:** Mould and Water Resistant  
Resistant to deterioration by UV light, damp and normal atmospheric conditions in the long term.
- Material:** Powder Coated Stainless Steel
- Recycled:** No
- Recyclable:** Yes
- Accessories:** Start/End Clip  
Wallbarn stainless steel self tapping screw for aluminium joists  
Wallbarn wood/wpc screw for timber & composite joists
