

Specifications:

Birds & Bees FLL Meadowmat

- Product Order Code - GG-WILD-BB-Z
- Available from - Wallbarn Ltd
- Standard Size
 - 1sqm
 - 500mm wide
 - 2000mm long
- Soil Thickness - 18 to 20mm
- Roll Weight - 20kg (25kg Saturated)
- Grass height on despatch - Approx. 100mm. The product is mown before despatch to minimise damage to plants. It will not be in flower when it arrives.
- *All measurements are approximate and taken when harvesting*
- Growth
 - Birds & Bees Mat is a blend of 41 native wildflowers, specially selected to be pollinator friendly. Many of the species are perennial which means they will flower every year if the conditions are suitable. Grown on biodegradable coir blanket, no grass species are required.
- Typical Seed Mixture* - 100% Native Wildflowers
- Soil Classification - Grown on bespoke FLL compliant substrate

With no grasses, this 100% wildflower mix is ideal for use on green roofs or areas where a florally focussed display of colour is required.

Flowering Times

Features:

Birds & Bees FLL Meadowmat

■ Features

A mixture of mature plants that allows you to establish dense planting very quickly - more reliable than seeding and less time-consuming than plug planting.

Biodiverse and pollinator-friendly providing a valuable source of nectar and food for many species of insects and birds.

Contains perennial, annual and bi-annual species to ensure a varied display each year.

Grown on a low nutrient green roof substrate to ensure the best mix of species and controlled growth.

Environmentally friendly requiring no pesticides and only minimal feeding when installed on a roof.

Low maintenance – does not require regular mowing.

Prefers a neutral pH but can tolerate acidic or alkaline soils - for best results this product requires installation on a low nutrient soil or substrate mix.

Ideal for:

Biodiverse landscaping schemes

Low maintenance areas

Commercial landscaping

Urban Areas and parks

Domestic gardens

Areas requiring maximum colour and interest

Green Roofs

FLL Compliant Substrate

Compost, Brick Dust, Brick, LECA

100% Coir fibre

which is biodegradable

**As sown. The actual percentage of each species contained may vary due to environmental factors. Harrowden Turf makes every effort to ensure wildflower products are free from weeds and pests, however due to the natural way in which these products are grown we cannot guarantee they are 100% pest free on delivery. It is unlikely that you will see every species that is listed. The variation of species present has been developed to suit a wide variety of soils and environmental conditions. This will result in a product that will adapt to individual settings which may mean some species are more successful than others. Contains annual bi-annual and perennial species. If installed after March many species may not flower during the first year.*
